I am a passionate Full Stack Developer with skills in both server-side and client-side web development, along with experience in networking and technical support. I bring a unique combination of technical skills and problem-solving abilities to the table. My focus lies in web developing using PERN Stack. I possess strong skills in agile methodologies, GIT, Docker, data structures, algorithms, and various JavaScript frameworks like React, Angular, and Express. With nearly 2 years of experience doing it, I consider myself resilient, communicative, resourceful, and competent. My passion for programming and determination drive me to overcome any challenge, and I am ready to contribute to innovative projects and continue growing as a Full Stack Developer.

Technologies

Front End: HTML, CSS, JavaScript (React, Angular), Redux.

Back End: Node.js, Express, SpringBoot(notions).

Base de Datos: MySQL, PostgreSQL

Languages

English- C2

Spanish-Native

Relevant work experience.

Genoma Studio, Full Stack Developer Junior.

January 2023–August 2023.

Contribute by creating new components, fixing some functionality bugs, and updating the backend hosting stack (Heroku) on Chevromax's Argentina project Home Page.

Technologies: Vue.js, Express, MySQL, GIT, Slack

Soy HENRY Full Stack Teaching Assistant.

November 2023–March 2024.

Coordinate a team of students to achieve integration. Assist in solving exercises and promote group collaboration (Pair Programming). Propose ideas for improving Bootcamp processes.

Projects

Henry Bootcamp, Hiper Mega Red

November 2023 - January 2024

Final project for the SOY HENRY Bootcamp. The application features a fully functional e-commerce and a service management system for technical repairs. My main contribution here was developing the user management system, including user creation, authentication, and authorization on the backend. Additionally, I collaborated on the frontend side in creating some components and persisting user session data.

Technologies: React, Redux, Express, PostgreSQL, Sequelize, GIT, Slack

URL: <https://pf-henry-sepia.vercel.app>

Rick and Morty DEX

August 2023 - November 2023

Academic experience: Henry Bootcamp

Design and develop a Full Stack application to visualize characters from Rick & Morty.

Technologies: React, Redux, Express, PostgreSQL, Sequelize, GIT, Slack

URL: <https://rick-and-morty-app-m3.vercel.app>

PROFESSIONAL EDUCATION

Full Stack Web Developer. Henry Bootcamp.

June 2023 - January 2024

800 hours of theoretical-practical coursework

CCNA 200-301.

July 2018 - November 2020.

COMPLEMENTARY EDUCATION

Argentina Develops 3. Inti.

November 2022 - April 2023.

Full stack development introduction. UTN.

March 2022 = November 2022.

ADDITIONAL WORK EXPERIENCE

Telecommunications Technician

September 2018 -Now.

Granadero Baigorria Municipality.

Install and maintain the metropolitan network that interconnects the city's video surveillance system. I upgraded the equipment installed on the streets and implemented an update on the monitoring servers, which allowed us to have video footage backup for approximately 6 months..
